

Praise For RecTec

“That park is a wonder in the neighborhood; it has transformed the whole feel of the area. The play equipment is terrific and gets lots of use by the community.”

**-Kim Scragg, Neighborhood Resident
Rutledge Park, Saanich**

“This equipment (Galaxy) is cool, I wish we had some in James Bay.”

**-Morgan, age 11
Rutledge Park, Saanich**

“You guys made it so easy to do the job – everything from picking the equipment – to installing it. People just can’t say enough about how great everything looks –and you can quote me on that!”

**-Pasquale Balletta, Principal,
Our Lady of Good Counsel**

“BC Parks has recently purchased eight playground units, from RecTec Industries. We are very pleased with the quality of the product and find it superior to other units we have tried. RecTec Industries rendered friendly, efficient service both in service and installation. If further units are required by us I would have no hesitation to order from RecTec Industries again.”

-J.D. Ring, Ministry of Parks

“In my experience RecTec has always been very thorough and extremely helpful. I have looked at many other playground companies, but found that RecTec was very easy to work with and always provided great customer service.”

-Julia Black, Mount Currie Band

“Thank you for all your help and support for our project. I am certain that the ration of revenue generated to time spent for this project (PlayFALL tiles) was small in comparison to other projects and therefore I truly appreciate the attention you gave us. I was thoroughly impressed by the professionalism and competency demonstrated by you and your staff and will not hesitate to contact and recommend RecTec in the future should the need arise.”

-Kevin Ellis
